

# EASY NP + Zn™

## Analysis (w/v)

Nitrogen	Phosphorus	Zinc
10	15	0.7

## Analysis (w/w)

Nitrogen	Phosphorus	Zinc
8	11.5	0.5

## Physical and chemical characteristics

### Specific Gravity

1.29 kg/L

### pH

6 - 6.5

## Common applications

EASY NP + Zn fertiliser is primarily used to supply crops with some phosphorus and zinc for a good early start. It can be:

- injected into the soil at sowing
- sprayed directly on to the soil at sowing
- applied in the seed row as a 'pop-up' at rates of 5 to 15 L/ha with up to 100 L/ha of water
- applied at rates of up to 200 L/ha away from the seed
- fertigated through irrigation systems, and
- applied in foliar sprays.

## Benefits

- The nutrients in EASY NP + Zn have been chosen for maximum efficiency in crop. EASY NP + Zn contains 100% water soluble phosphorus, chelated zinc and ammonium nitrogen.
- The zinc in EASY NP + Zn is present as EDTA chelated zinc, therefore it is not bound to the soil and is readily available to the plant.
- Liquid fertilisers like EASY NP + Zn can distribute nutrients more evenly than solid fertilisers, particularly when low rates are used.

- EASY NP + Zn can be metered precisely for variable rate applications.
- Pumps are used to transfer EASY NP + Zn, so there's no need for manual lifting, augers or forklifts.
- There's no dust or downtime in waiting for solid products to dissolve.
- It can be stored in cost-effective heavy duty poly tanks.
- It does not deteriorate in storage, and can be stored from year to year if required.
- EASY NP + Zn can be blended with some EASY LIQUIDS® fertilisers for alternative nutrient concentrations.
- EASY NP + Zn offers flexibility in application. It can be injected into the soil, sprayed on to the soil, applied using boomsprays with dribble bars or streaming nozzles, and even foliar sprayed or fertigated if required.

## Supply

Incitec Pivot Limited delivers EASY NP + Zn in bulk on farm using 26 tonne Single tankers or 36 tonne B Double tankers. It can also be supplied in 1000 litre containers (IBCs). Contact your Incitec Pivot Distributor to order EASY NP + Zn.

For further information, contact your local Incitec Pivot Distributor or freecall 1800 009 832.
